PROFESSIONAL SUMMARY

Detail-oriented and motivated Information Technology Professional student at triOS College with hands-on experience in networking, systems administration, cloud computing, cybersecurity, virtualization, and enterprise infrastructure support. Skilled in configuring Windows Server, Active Directory, Microsoft Exchange Server, Linux environments, and cloud platforms including Oracle Cloud Infrastructure and Microsoft Azure. Experienced in PowerShell scripting, backup and recovery, virtualization, cybersecurity monitoring, and technical troubleshooting. Strong teamwork, communication, and problem-solving abilities with additional industrial automation and PLC programming experience.

TECHNICAL SKILLS

- **Infrastructure & Networking:** TCP/IP, VLANs, Routing & Switching, Cisco Networking, DNS, DHCP, VPN, SSH, Wireless Networking
- **Systems Administration:** Windows Server, Windows 11, Linux (Ubuntu/Fedora), Active Directory, Group Policy
- **Cloud & Virtualization:** Oracle Cloud Infrastructure (OCI), Microsoft Azure, Hyper-V, Proxmox, Docker, Kubernetes
- **Cybersecurity:** SIEM Monitoring (Wazuh), Vulnerability Assessment, Penetration Testing, Security Hardening, Firewall Configuration
- **Automation & Tools:** PowerShell, Bash, Ansible, Git
- **Enterprise Services:** Microsoft Exchange Server, Microsoft SQL Server, IIS, Apache, Nginx

PROFESSIONAL EXPERIENCE

Industrial Electrician / PLC Programmer Intern – Magna International (Oct 2024 – Dec 2024)

- Assisted with industrial electrical systems maintenance and automation hardware support.
- Worked with PLC programming concepts including ladder logic and structured text.
- Supported troubleshooting of industrial control systems and industrial communication protocols.
- Prepared technical documentation and maintenance reports.

Automotive Service Technician – Islington Chrysler Dodge Jeep Ram Fiat (Jan 2022 – Oct 2023)

- Performed diagnostics, maintenance, and repairs on hybrid, electric, and traditional vehicles.
- Utilized manufacturer diagnostic software and technical service tools.
- Delivered high-quality customer service and technical support.

Automotive Service Technician Apprentice → Senior Apprentice – Avenue Nissan (Oct 2018 – Nov 2021)

- Assisted with vehicle maintenance and repair operations.
- Supported troubleshooting of electrical and electronic systems.
- Documented completed services and inspection findings.

EDUCATION

Diploma in Information Technology Professional – triOS College | Expected Graduation: Nov 2026

Diploma in Industrial Electrician (Robotics with PLC Programs) – Stanford International College | Jan 2024 – Dec. 2024

Diploma in Automotive Service Technician – Centennial College | Aug 2018 – May 2021

TECHNICAL PROJECTS

- Configured and managed Microsoft Exchange Server infrastructure including mailboxes, transport rules, and retention policies.
- Deployed Windows Server and Active Directory environments for enterprise simulations.
- Built hybrid cloud infrastructure using Proxmox and Oracle Cloud Infrastructure.
- Designed and configured multi-VLAN Cisco network infrastructures.
- Conducted penetration testing and vulnerability assessments using Kali Linux.
- Configured and maintained Microsoft SQL and Exchange Server instances and backup procedures.

CERTIFICATIONS

- CompTIA A+ — Completed August 2025
- CompTIA Security+ — In Progress (Expected 2026)

ADDITIONAL INFORMATION

- Eligible to work in Canada
- Strong interest in Cloud Computing, Cybersecurity, and Systems Administration
- Experienced working in fast-paced technical environments
- Continuously learning emerging technologies and enterprise IT solutions
